About me

If you're looking for a graphic designer/creative artworker with a meticulous eye for detail, look no further! With over 32 years of graphic design and artworking experience, I've picked up a trick or two along the way.

Starting my career back in the days of a drawing board and scalpel, I've worked for design agencies, printers, publishers and myself for a wide range of industries, latterly specialising in leisure and retail – these days using a Mac!

I enjoy keeping abreast of this constantly changing sector and the efficiencies that evolve. I'm always learning new skills and software so that I can offer my clients everything they may need.

I'm equally at home freelancing either onsite or remotely, or working directly with clients and third party consultants and mentors. I offer the design and creation of accurate, effective artwork and graphics, without expensive overheads.

I also offer photography and videography work and am a licensed and fully insured drone pilot.

If you'd like to see some of my more recent projects, please use the navigation panel to browse. There's a lot there so feel free to jump to areas of interest to you!

Thanks for your time.

CREATIVE ARTWORK

Skills and software

I'm renowned for my eye for detail and strong retouching, typography and layout skills.

I have an excellent knowledge of print and finishing techniques and product packaging regulations, as well as being a pretty handy proofreader. I'm efficient, organised, logical and methodical in my approach to working on large projects.

I also offer photography, videography and I'm a licensed drone pilot.

The fullness of each of the circles below is an indicator of how accomplished I am in each application currently, but I'm always learning!

About me

If you're looking for a creative artworker with a meticulous eye for detail, look no further! With over 32 years of experience, I've picked up a trick or two along the way.

Starting my career back in the days of a drawing board and scalpel, I've worked for design agencies, printers, publishers and myself for a wide range of industries, latterly specialising in leisure and retail – these days using a Mac!

I'm equally at home freelancing either onsite or remotely, or working directly with clients and third party consultants and mentors.

On a personal note, I love my cats and enjoy DIY (particularly woodwork), driving, live music, kite flying, pottery, gardening and travel.
